Upfront Payment Calculator

[Help](#)

This upfront payment calculator will help you determine the appropriate upfront payment to submit with your Form 159. Please refer to the [Auction 57 Procedures](#) public notice for a complete explanation of upfront payments and bidding eligibility.

The upfront payment calculator lists the licenses/permits you specified in your Form 175. Please note that the calculator will not display the list or keep a running total of bidding units, if you selected 1,000 or more licenses/permits. Use of the upfront payment calculator is always optional; you can type another amount in the Total Upfront Payment field, if desired.

Calculating Your Upfront Payment

To calculate the total upfront payment amount to submit with your Form 159, perform the following steps:

1. Read the Defaulted/Delinquent Status section and specify whether you have previously defaulted or been delinquent in payment.
2. Select the licenses/permits for which you would like to calculate the total upfront payment amount. If you have selected 1,000 or more licenses/permits, simply type in the total number of bidding units for which you wish to establish your maximum eligibility. The calculator will automatically calculate the total upfront payment amount.
3. To save the total upfront payment amount and carry it through to Form 159, click on the "Carry to 159" button.

Defaulted/Delinquent Status

Any auction applicant that has previously been in default on any Commission license or has previously been delinquent on any non-tax debt owed to any Federal agency must submit an upfront payment equal to 50 percent more than that set for each particular license. Please specify below whether you have ever been in default on any Commission licenses or delinquent on any non-tax debt owed to any Federal Agency.

- ☒ I have never defaulted/been delinquent
☐ I have previously defaulted/been delinquent

CARRY TO 159

Available Licenses/Permits

The following table lists all available licenses/permits based on licenses/permits selected in your submitted Form 175. As an upper bound on the upfront payment, an applicant could add together the upfront payments for all licenses on which it seeks to bid (either individually or in a package) in any given round. Select one or more licenses/permits to calculate an estimated upfront payment.

([Select All](#) | [Clear Selections](#))

<input type="checkbox"/>	PC-AMT004-B	Mississippi River	421,000	\$421,000.00
<input type="checkbox"/>	PC-AMT005-A	Great Lakes	185,000	\$185,000.00
<input type="checkbox"/>	PC-AMT005-B	Great Lakes	185,000	\$185,000.00

The bidding units listed in the table above apply for those applicants who have never defaulted or been delinquent. Former defaulters should calculate their upfront payment for all licenses/permits by multiplying the number of bidding units they wish to purchase by 1.5. In calculating the number of bidding units to assign to former defaulters, the Commission will divide the upfront payment received by 1.5 and round the result up to the nearest bidding unit.
